

REQUIREMENT FOR Freshman STUDENTS!

GE Program Portfolio!

Every Freshman student admitted to Fresno State in Fall 2018 and later will be automatically enrolled in Fresno State's GE Program Portfolio in Canvas and will have to submit assignments from GE courses and reflections written outside class. You do not have to create a Portfolio on your own, we have it all set up and you just submit assignments from GE courses and brief reflections you write outside of class. Students admitted Fall 2019 and later will submit all GE assignments to the GE Portfolio in Canvas in which they are automatically enrolled.

You have been enrolled in the GE Program Portfolio in Canvas that includes additional information, guidelines for the reflections you are required to write, and links to submit the designated assignments from your GE courses. The syllabus for your GE course will indicate which assignment aligns or is linked to which GE learning outcome and you will submit the assignment, indicating which learning outcome was listed on the syllabus next to the assignment. If no assignment is designated on the syllabus or it is unclear, ASK YOUR PROFESSOR. There is information about the reflections within the Canvas "course" and you will only submit reflections after completing multiple GE courses and submitting the assignments.

Is this *REALLY* a requirement? YES

Prior to completing 60 units at Fresno State you must submit 8 assignments from lower-division GE courses and 1 reflection prior to meeting with your academic advisor to have the 60 unit advising warning lifted. If the warning is not lifted, a registration hold will be applied when you reach 75 units. Prior to graduation, you must submit one assignment for every GE course, lower and upper-division, you take at Fresno State and also submit 3 reflections.
