## Foundations of Infant Mental Health Training Program

May 8, 2014

### *Relationships Feed Development*

When caregivers read and respond to their infant's cues, how does this impact brain development:

---

---

---

Provide an example of a caregiver –child interaction that teaches emotional understanding:

---

---

---

Provide an example of a caregiver-child interaction that shapes the emerging stress recovery system:

---

---

---

How do relationships facilitate language development:

---

---

---

Provide an example of how relationships facilitate motor development:

---

---

---
