

Next Issue – AB 890 and advanced practice nursing and, When faculty return to the role of a student

November 2nd, 2022

Welcome to the first CSU, Fresno **Doctor of Nursing Practice** newsletter.

If you've considered advancing your nursing role as a leader in your community or work site, while advancing nursing science, the DNP degree is your next step in meeting that goal. We hope you will gain insight into the DNP degree here at Fresno State and invite you to subscribe to the newsletter so each quarter a new issue arrives in your inbox.

Our goal is to publish quarterly with the aim of informing nurses interested in the Doctor of Nursing Practice (DNP) degree. We will share articles which focus on Fresno State's DNP Program, our DNP Faculty, and legislative updates affecting the advanced practice nursing workforce. In this issue we would like to highlight a few of our DNP faculty.
