

Hello,

My name is Eriknaz Koroyan, and I am with Adult Day Health Care of Madera. We are currently seeking a Master's level Social Worker (MSW) to join our interdisciplinary team and help provide compassionate, person centered care to our participants- many who are living with a chronic condition.

Our center is licensed by the California Department of Aging and provides services such as skilled nursing, physical and occupational therapy, dietician support, and social services.

We would welcome the opportunity to connect with qualified and motivated candidates who are passionate about improving the quality of life of underserved adults.

Interested individuals may email us adhcofmadera@gmail.com
