**September 23, 2022** September 24, 2022

**Register Now** 

This activity has been awarded (0.8) CEUs in the area of Professional Studies by The Registry of Interpreters for the Deaf, Inc. at the "Some" Content Knowledge Level for CMP and ACET Participants. CEUs will also be awarded for those certified through the Board for Evaluation of Interpreters and Generic CEUs awarded through Fresno State. Partial CEUs will not be awarded.

#### **Keynote: Dr. Kasee Stratton-Gadke**

Dr. Stratton-Gadke, an associate professor of School Psychology at Mississippi State University, directs one of two labs worldwide advancing education, behavior, and quality of life outcomes for individuals with CHARGE. As an internationally recognized scholar in CHARGE, she has presented in the United States, Australia, New Zealand, and Denmark.

"Understanding CHARGE Syndrome and Recent Research Findings" Serving students and individuals with CHARGE can be complex, yet as professionals, it can also be one of the most unique learning opportunities we have in our careers. This presentation will introduce CHARGE, its medical learning challenges, and behaviors. complexities, recommendations to better serve individuals with CHARGE will be provided.

### **Christopher Russell, TVI**

Chris Russell is the Project Coordinator for the New York Deaf-Blind Collaborative, and has experience as a classroom teacher and Teacher of Visually Impaired (TVI) working with children who have visual impairments and deaf-blindness. He holds a Master's Degree in Educational Leadership, and is adjunct faculty at Hunter College, CUNY.

Individuals with CHARGE Syndrome often have difficulty in achieving or maintaining availability for learning due to a combination of internal and external influences, including a variety of biophysical and environmental factors. This session provides an overview of the unique impacts of CHARGE Syndrome on availability for learning, and an updated approach to student-centered assessment and intervention.

#### Susanne Morgan Morrow, MA, CI/CT

Susanne Morgan Morrow, MA, CI, CT is the Project Director of the New York Deaf-Blind Collaborative, a federally funded grant for DeafBlind children and young adults in New York. Susie's career started within the DeafBlind adult community at Helen Keller National Center, over 25 years ago. She is also a nationally certified Sign Language Interpreter and interpreter educator where she has provided service on the local, regional, national and international levels.

"Communication Needs & Modifications to Sign Language for Learners with CHARGE" Individuals with CHARGE Syndrome have a very broad range of communication representations, ranging from emerging communication skills to formalized language. Some individuals use spoken language, some use sign language and others use object symbols for communication. This presentation will address some common communication supports for optimal receptive and expressive communication.
